OneOhOne Jewelry

Social Media Marketing Assignment

Student Name: Program:	Betty Janneh
School & Program:	Digital Marketing, Noroff Vocational College
Date Of Completion:	29th Of March 2026

ONE OH ONE JEWELRY

1. Introduction

This project focuses on building and executing a social media strategy for OneOhOne Jewelry; a brand centred around waist beads and accessories inspired by culture, identity, and self-expression.

The goal was to create engaging and visually consistent content across selected platforms, while applying key digital marketing principles such as audience targeting, branding, and content strategy.

2. Brand Identity & Visual Elements

Brand Personality

The brand personality of OneOhOne Jewelry is defined as:

- Elegant
- Empowering
- Authentic
- Confident

Brand Voice & Tone

The brand voice is empowering, elegant, and personal, with a warm and inspirational tone. The communication style builds emotional connection while reinforcing themes of self-expression and identity.

"Every piece tells a story. What story will yours tell?"

Brand Attributes

- Self-expression
- Confidence
- Cultural identity
- Femininity
- Elegance

2. Brand Identity — Visuals

Logo

Used consistently across platforms to establish brand recognition and trust.

Figure 1. OneOhOne Jewelry logo

Colour Palette

- Beige / cream — softness and elegance
- Gold tones — luxury and heritage
- Deep green / emerald — nature and African inspiration
- Black — contrast and minimalism

Figure 2. Brand colour palette

Typography & Visual Style

Elegant serif fonts for storytelling, clean sans-serif for readability. Visual style: close-up product shots, natural lighting, skin-focused imagery, minimal backgrounds, and warm soft tones reflecting femininity and culture.

Figure 3a. Brand imagery

Figure 3b. Brand imagery

3. Platform Choice & Strategy

Products & Services

- Waistbeads(core product)
- Bracelets (e.g. Alex — unisex collection)
- Custom sizing for a personalised fit

The products are tools for self-expression, allowing customers to connect with their identity, confidence, and personal style.

Content Categories

- Product-showcase
- Educational content
- Lifestyle content
- Behind-the-scenes content

TikTok

Selected for reach and engagement. Short-form video supports movement, storytelling, and emotional connection. Content centres on confidence, body awareness, and lifestyle integration.

Instagram

Used as a branding platform for visual consistency: product presentation, storytelling (Mama Africa collection), and aesthetic cohesion.

Posting & Engagement Guidelines

- Instagram: approx. 3 posts per week | TikTok: 2–3 videos per week
- Publish during evenings and weekends for maximum engagement
- Respond to comments and messages within 24 hours
- Maintain a friendly, appreciative, and supportive tone

Consistency Across Platforms

Bothplatforms shareconsistentbrand identity through colour, typography, tone, and content themes, while each serves a distinct purpose.

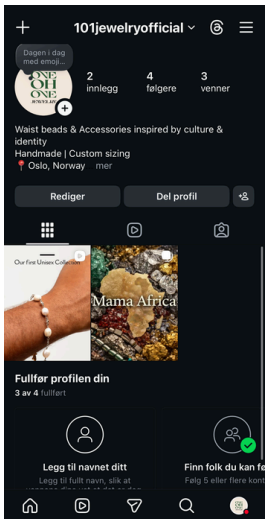

Figure 4. Instagram profile

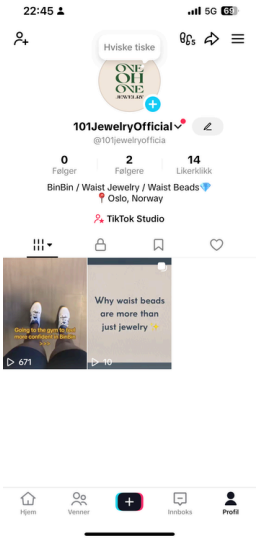

Figure 5. TikTok profile

4. Target Audience

- Women aged 18–34
- Interested in self-expression, femininity, and cultural fashion
- Based in urban areas (e.g. Oslo, Scandinavia, global audience)

They value:

- Meaning behind products
- Aesthetic and minimal design
- Confidence and identity

5. Content Strategy

The content strategy was built around three key pillars:

1. Education
Content explaining the meaning and cultural significance of waist beads.

2. Emotional Connection
Content focusing on confidence, femininity, and self-expression.

3. Product Focus
Content showcasing collections such as Mama Africa and Moonlight through storytelling and visuals.

Each post includes a strong hook, clear audience value, and a call-to-action. This ensures all content aligns with the brand's identity while supporting engagement and conversion goals.

6. Post Performance Analysis

Two content types were published on TikTok: a carousel (education/awareness) and a video (lifestyle/confidence). On Instagram, a storytelling carousel introduced the Mama Africa Collection and a product reel showcased the Alex bracelet. Together, these posts reflect a balanced strategy combining storytelling with product-focused content.

Platform	Post Type	Topic	Date
TikTok	Carousel	Educational — Why waist beads matter	27 Mar 2026
TikTok	Video	Confidence & lifestyle — Gym content	27 Mar 2026
Instagram	Carousel	Storytelling — Mama Africa Collection	27 Mar 2026
Instagram	Reel	Product-focused — Alex bracelet	27 Mar 2026

TikTok Performance

TikTok served as the primary discovery platform. The algorithm-driven For You page enabled organic reach well beyond existing followers, making it the strongest channel for new audience acquisition.

Instagram Performance

Instagram performed as a brand-building platform, reaching primarily existing followers. Visual consistency reinforced brand identity and built a foundation for long-term audience trust.

TikTok Post 1: Carousel

Post Type: Carousel **Topic:** Educational — "Why waist beads are more than just jewelry" **Date:** 27 March 2026

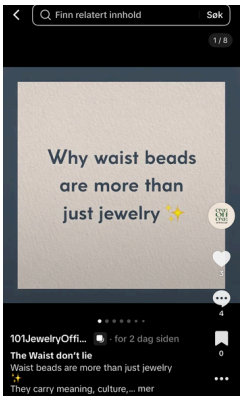

Figure 6. TikTok carousel post

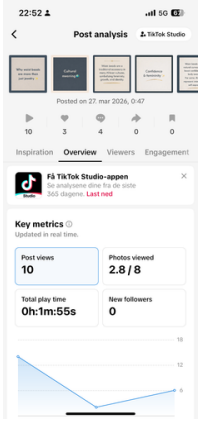

Figure 7. Carousel analytics

Key Metrics — First 24 Hours

Views	10
Likes	3
Comments	4
Shares	0
Saves	0
Avg. slides viewed	3.4 / 8
Total play time	1 min 39 s
New followers gained	+2
Account total likes	14

Audience Insights

- 83% newviewers — reach beyond existing audience
- 81% non-followers — strong discovery potential
- 17% returning viewers

Performance Interpretation

Strong organicdistributionfora new account. High non-follower percentage confirms early reach. Comments (4) indicate meaningful engagement. Slide completion (3.4/8) shows retention declined mid-carousel.

Key Learnings & Improvements

- Educationalcontentdrivesdiscovery in early growth
- Strong opening slides; mid-carousel retention needs work
- Reduce slides, simplify content, add earlier CTAs

Conclusion

Post achievedits awareness objective with clear organic reach potential and opportunities to improve retention in future carousels.

TikTok Post 2: Video

Post Type: Video **Topic:** Confidence & lifestyle — "Going to the gym to feel more confident in BinBin" **Date:** 27 March 2026

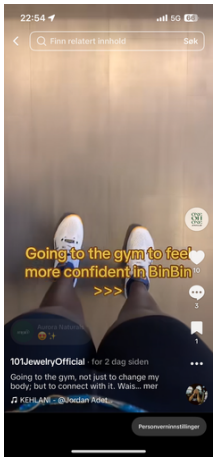

Figure 8. TikTok video post

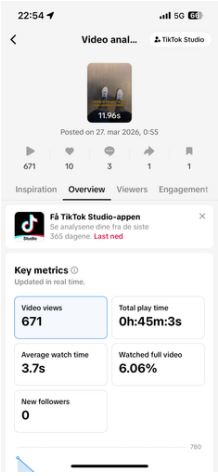

Figure 9. Video analytics

Key Metrics — First 24 Hours

Views	668
Likes	10
Comments	3
Shares	1
Saves	1
Total play time	44 min 5 s
Avg. watch time	3.6 s
Full completion rate	5.85%
Retention rate	31%
New followers gained	0

Audience Insights

- 100%new viewers, 100% non-followers
- For You page: 97.7% | Profile: 2.2%
- Female: 91% | Male: 9% | Age 18–24: 56% | Age 25–34: 32%
- Top locations: Norway 40.7% | Sweden 35.2% | Denmark 9.3% | Finland 5.7%

Performance Interpretation

Strong reach (668views) via For You page confirms effective algorithm distribution. Engagement was notable for a new account. However, avg. watch time (3.6s) and 5.85% completion rate reveal early drop-off from a weak hook.

Key Learnings & Improvements

- Short-form videois highly effective for discovery
- Algorithm distributes even for new accounts
- Audience targeting accurate (91% female, 18–34)
- Strengthen first 1–2 seconds; add movement; faster pacing

Conclusion

Video achieved strong awareness and reach. Improving hook strength and watch time will be key to increasing performance in future content.

Instagram Post 1: Carousel

Post Type: Carousel **Topic:** Storytelling — Mama Africa Collection **Date:** 27 March 2026

Figure 10. Instagram carousel post

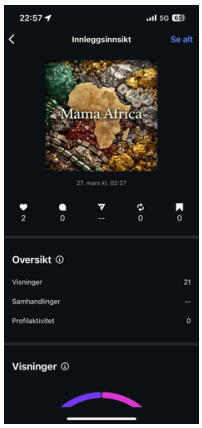

Figure 11. Carousel analytics

Key Metrics — First 24 Hours

Views	17
Likes	2
Comments	0
Shares	0
Saves	0
Accounts reached	6
Profile activity	0

Audience Insights

- 70.6% followers | 29.4% non-followers
- Traffic: Profile 82.4% | Feed 11.8%

Engagement Breakdown

- Likes on coverslide (Mama Africa): 2
- Remaining slides: 0 likes

Performance Interpretation

Post primarily reached existing followers via profile visits. Cover image was the strongest engagement driver; remaining slides did not retain attention.

Key Learnings & Improvements

- Storytelling supports brand identity but relies on existing audience
- Strong cover is critical
- Add clearer CTA, simplify slide text, optimise hashtags and posting timing

Conclusion

Post built brand identity but was limited to existing followers. Future work should increase reach and sustain carousel engagement beyond the first slide.

Instagram Post 2: Reel

Post Type: Reel (Video) **Topic:** Product-focused — Alex bracelet (unisex, versatility) **Date:** 27 March 2026 **Duration:** 8 s

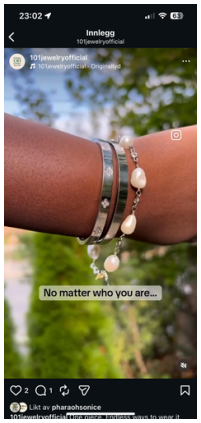

Figure 12. Instagram reel post

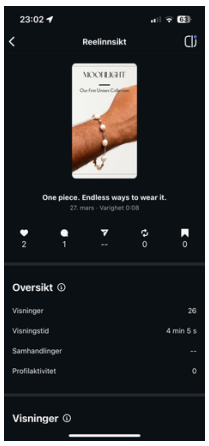

Figure 13. Reel analytics

Key Metrics — First 24 Hours

Views	22
Likes	2
Comments	1
Shares	0
Saves	0
Total watch time	3 min 39 s
Avg. watch time	15 s
Accounts reached	7
Profile activity	0

Audience Insights

- 50%followers | 50% non-followers
- Traffic: Profile 80% | Reels tab 15%

Retention & Engagement

- Drop-off-rate: 40% | Retention at 6s: 42% | Peak: 0:01–0:02
- Avg. watch time (15s) exceeds video length (8s) — indicates replays
- Likes: 2 | Comments: 1 | Shares: 0 | Saves: 0

Performance Interpretation

Balanced follower/non-follower reach. Rewatch behaviour signals product interest. 80% profile-driven traffic limits broader distribution.

Key Learnings & Improvements

- Short product content encourages rewatching
- Hook strongest in first 1–2 seconds
- Optimise for Reels (trending audio, stronger hook, clear CTA)

Conclusion

Reels howled product visibility and viewer interest. Stronger hooks and Reels-specific optimisation will improve external distribution and reach.

7. Content Execution

Two platforms used: TikTok and Instagram. Each platform included a minimum of two posts and a mix of carousel and video content.

- Educational carousel about waist beads
- Confidence-based video showing product in use
- Storytelling post — Mama Africa collection
- Product-focused video — Alex bracelet

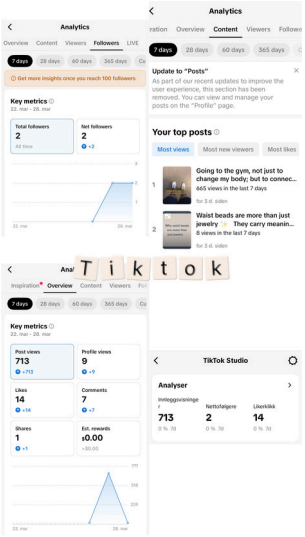

Figure 14A & B (below) Content overview (4-image collage — optional)

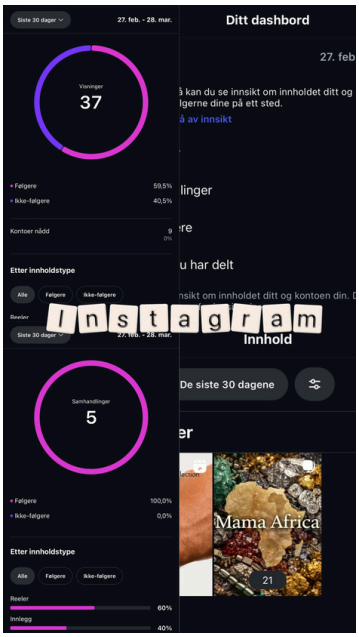
8. Engagement Strategy

To increase interaction, content includes:

- Questions in captions (e.g. "Which one resonates with you most?")
- Relatable messaging focused on confidence and identity
- Visually engaging content to drive saves and shares

This encourages comments, saves, and shares — making the audience feel involved rather than passive consumers of content.



9. Hashtag Strategy

- Niche: #waistbeads, #waistjewelry
- Broad: #jewelry, #fashion
- Brand-specific: #oneohonejewelry

This combination balances discoverability and relevance, reaching both broad audiences and niche communities interested in waist beads and culturally inspired jewelry.

10. Mock-Up Advertisement

Figure 15. Mock-up advertisement

Ad Details

Format	Static Instagram feed post
Objective	Increase sales — Black Friday Week (50% discount, urgency-driven)
Target Audience	Women 18–34; fashion, self-expression, cultural jewelry; gift buyers
Platform	Instagram — visual-driven, combines aesthetics with promotion
Visual Strategy	Neutral beige bg | Gold & green accents | Clean typography
CTA	Visit Etsy shop via link in bio — encourage immediate purchase

10. Reflection

To complete this assignment, I followed a structured process where I first developed a social media style guide for OneOhOne Jewelry, and then used it to plan and create content for TikTok and Instagram. This helped me stay consistent in terms of brand identity, tone, and visual direction throughout the project.

The style guide had a strong influence on both my content creation and engagement strategy. It ensured that all content aligned with the brand's values of confidence, self-expression, and cultural identity. It also guided decisions such as content type, messaging, and posting consistency. Based on this experience, I believe that having a social media style guide is essential for effective brand representation, as it creates clarity, consistency, and a stronger connection with the audience.

One of the things I liked most about this assignment was seeing how content performs in real time. For example, the TikTok video reached a high number of non-followers, showing strong algorithm distribution. However, I also learned that high reach does not guarantee strong retention or conversion.

A challenge I encountered was low retention and engagement on some posts, especially on Instagram. This made me realize the importance of strong hooks and faster pacing in short-form content. I addressed this by analysing performance data and identifying areas for improvement, such as simplifying content and improving the first few seconds of videos.

Overall, this assignment helped me understand how strategy, content, and analytics work together, and how continuous improvement is necessary in digital marketing.
